Pre-Treatment Instructions

Thank you for contacting our office, and welcome to our practice. We encourage you to visit our website at www.rootcanalnewyorkcity.com, as it contains information you may find helpful.

Please follow these guidelines in preparation for your initial visit to our office:

- 1.) Eat breakfast or lunch before your appointment to ensure a normal blood glucose level. Do not drink caffeinated drinks, like regular coffee. ??
- 2.) Take your routine medications, including aspirin therapy, if applicable. However, do not take medication for discomfort (i.e., ibuprofen, Advil, Motrin, Aleve, etc.) prior to the first visit because it may mask symptoms and hinder diagnosis.
- 3.) If you require prophylactic antibiotics before dental visits for a prosthetic heart valve or orthopedic prosthesis (artificial hip, knee, elbow, etc.), please call our office for instructions. If you've already discussed this with us, you do not need to call again.
- 4.) Our office hours are from **8:30 am until 4:00 pm, Monday-Friday**. It is important that you show up on time for your appointment, to ensure that we have sufficient time to give you the best care possible. We respect your time, and make every effort to stay on schedule, and late arrivals are disruptive for everybody.
- 5.) All patients under the age of 18 must be accompanied on each visit by their parent or legal guardian.
- 6.) If possible, please print and complete the medical history, financial and pharmacy forms prior to your visit.

We look forward to being of service to you. If you have any questions, please don't hesitate to call us at 212-355-4444 or e-mail rootcanalnyc.com
