*EXTRACTIONS: Extractions are sometimes a part of a pet's dental procedure. Sometimes teeth are very loose, have fractures, or even major root exposure. These teeth a lot of times require removal due to the problems they may cause to your pet in the future/ (i.e.: tooth root abscess, etc...) Extractions will be done based on the veterinarian's best judgment. The cost of an extraction is based on the time it takes to perform the procedure. These costs are over and above the routine dental fees. We can assure you that only teeth needing to be extracted will be. Having extractions done will have a beneficial effect on your pet's health and less complications in the future. \_\_\_\_\_ (Initial)*
