Edward G. Johnson, DMD

• *General Dentistry*

“Every member of our professional team takes pride in the great reputation we’ve built for our practice,” says Dr. Edward Johnson, a general dentist who focuses on cosmetic dentistry and Invisalign®. He delivers high-quality care in a relaxing and friendly environment, working side by side with his daughter, Dr. Katelin Johnson. These devoted doctors embody the true meaning of a “family practice,” with an overall mission to treat every patient like a member of their own family.

Dr. Johnson and his team are committed to offering the most advanced care possible. “If there is a new technology that will provide patients with superior outcomes, we have it,” he says. An Invisalign® Premier Provider and member of an elite North American clear aligner study club, he uses an iTero® digital impression scanner and offers advanced options for single-day teeth whitening, nonsurgical gum treatment, dental implant restorations,

porcelain veneers, crowns and bridges.

Dr. Johnson trained at the world-renowned Rosenthal Institute of Aesthetic Dentistry in Manhattan. The before-and-after gallery on his website brims with many of the beautiful smiles he has achieved. His skills in cosmetic dentistry and his passion for staying current with the latest techniques have earned him recognition as a *New Jersey Monthly* Top Dentist.

He attributes much of his success to a talented staff, a network of dental specialists and the wonderful patients he is so fortunate to serve. “I am blessed to be in this profession, providing patients with smiles our entire team can be proud of,” Dr. Johnson says.
